FAIR DEAL MARBLES & GRANITE IND. LLC

www.fairdealuae.com

SIMPLY INSPIRED AND CRAFTED BY NATURE

IMPORTED FROM ITALY, GREECE, BRAZIL, TURKEY, SPAIN & INDIA

About us

Since 1999

FAIR DEAL is a Global trading company relating to premium quality of imported stones across the globe viz, Italy, Turkey, Spain, Brazil, Greece, India etc. FAIR DEAL has rich experience over two decades in the natural stone sourcing, trading and supplying industry. In these years, we've come face to face with lots of challenges and rewards. However, what remained constant was our strive for excellence. The immense growth that we have seen, and the contribution that we were able to make to the natural stone market, all can be credited to the focused and determined approach of our leaders and team to deliver the best possible quality.

As the team FAIR DEAL has expertise in sourcing material specifically from world's best quarries. We have proficient and eager human assets that convey their passion and skills to make our products and brand prominent all over the region. A team of innovative and progressive individuals that strive to create exceedingly creative, bespoke items.

The achieved success is demonstrated by a long list of satisfied & highly valued clients spread out in different geographical areas. We at Fair Deal, bring to you imported marbles & granite which are unmatched in quality, shine and stature and align in sync with universal norms. With our commitment to "Quality & Value" and immense trust put in us by the community, we look forward to leaping into the future as an Industry Leader. We aim to work tirelessly to establish our presence across the nation and prepare ourselves for global opportunities by refining our qualities even more while acquiring the materials from the world's most renowned quarries.

We are proud of what we have achieved and strive for what is undeniably ours to achieve. Cheers to FAIR DEAL and eternity more of growth, contribution and achievements!

Italy

From the land where Michelangelo born

Italian marble is superior because of its purity, hardness, and stunning white color. Its durability is proven by the fact that some structures, sculptures, and other works of art built in Italian marble, centuries ago are still standing today.

Crafting the most beautiful designs for years.

Some of our most popular Italian marbles in-store are Calacatta, Statuario and Carrara marble.

Turkey

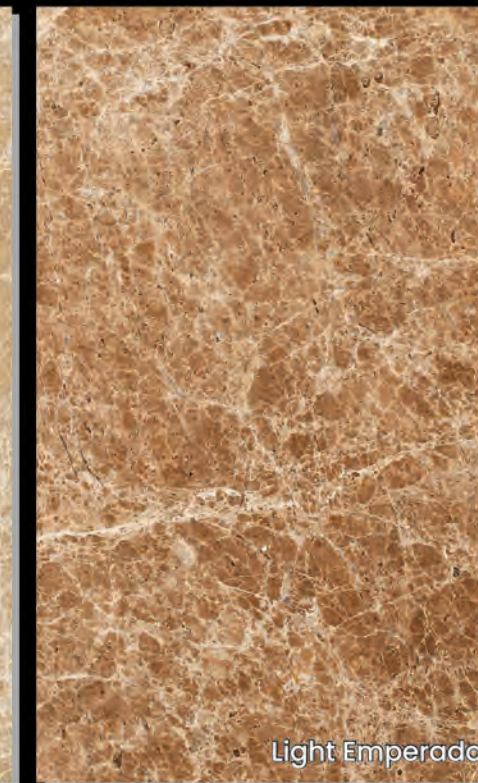

Stone born from fertile natural source
with a pristine face

The history of marble quarries goes back more than 4000 years, making turkey one of the top producing nations for marble. We provide both traditional marbles in colors like beige, brown, and white, as well as continuously adding to our range. We work hard to provide our clients, architects, and project developers with the chance to select the most prestigious stones for their projects or their stockyard.

Assurance of excellence in quality.

Onyx

Stone of the mind

Onyx symbolizes mental strength, mindfulness and self-control. It is a relatively recent natural stone in the world of architecture, but it has quickly gained acceptance due to its distinctive appearance. This sparkling stone is used in enhancing the beauty of your space. It is the most preferred material in the world of interiors because of its amazing swirls, speckling, vibrant color presence and unmatched translucency.

Let your interiors sparkle.

Artisanal quality is the ultimate expression of nature.

Quartz

Most exceptional design options to choose from

Most patterns of quartz stones resemble natural stone but with a consistent pattern, texture and color. Thus flooring or countertops have uniform appearance. Resistant to acid and food safe. Suitable for kitchen and wet areas and less porous. More durable on scratch and heat resistant.

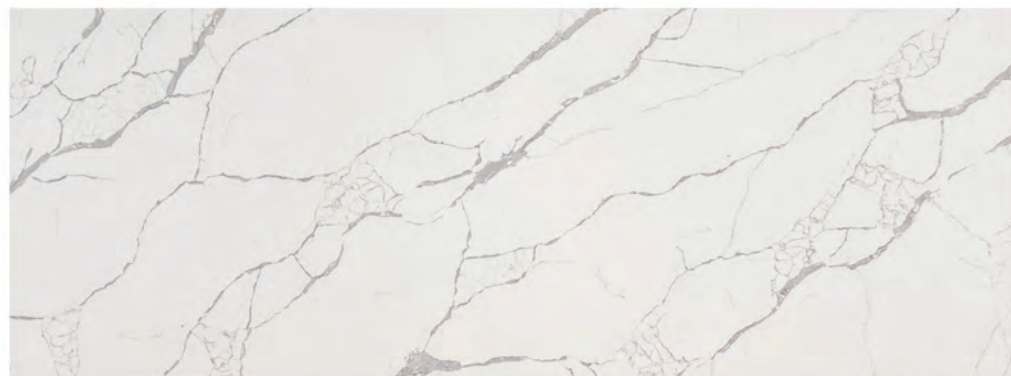

The scratch-less stone.

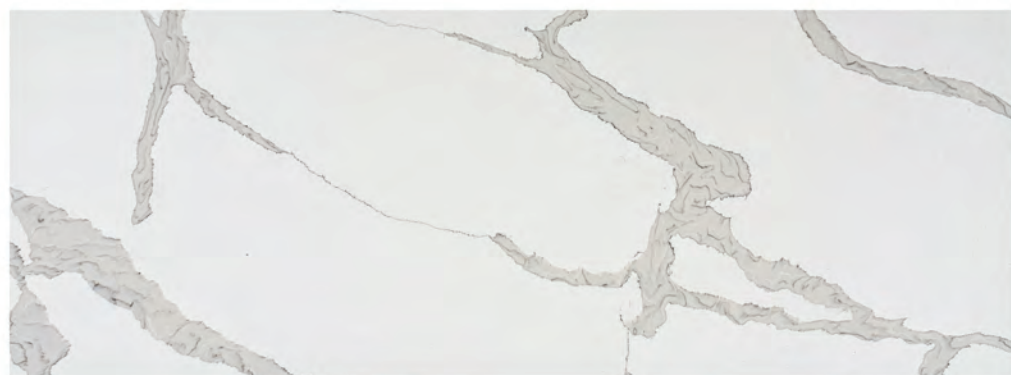

Quartz is harder than marble, and its surface is resistant to scratching as well.

Porcelain

Due to their longevity, ease of upkeep, variety of styles and resistance to wear and tear, porcelain tiles have long been one of the most popular flooring options in the typical home. A subset of ceramic tiles called porcelain tiles are produced using a slightly different process and a different set of ingredients. Clays and other materials are combined with high heat to create porcelain tiles.

Another level of beauty.

Take it from bland to beautiful with porcelain tiles.

The splendour is all yours.

Unlock the beauty of nature with our precious stones.

www.fairdealuae.com

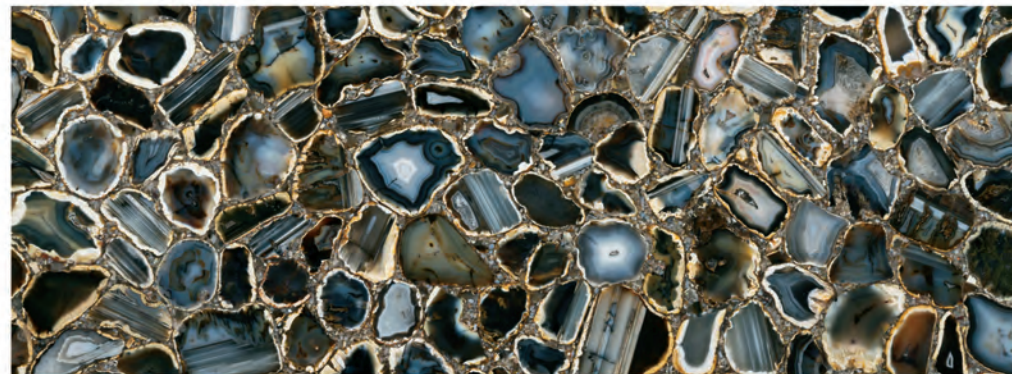

Semi Precious

Semi precious stone is individually cut and bound with an epoxy resin to create a stunning slab that makes a statement. Semi precious stone slabs can be installed as a counter-top, back-splash, wall application, or flooring. Many semi precious stone slabs are semi-translucent and can be back-lit to create a luxe ambiance, completely transforming the look and feel of any room.
